REVOLUTION TWIN S

SELF-SERVICE LAUNDRY
MADE EASY FOR ALL

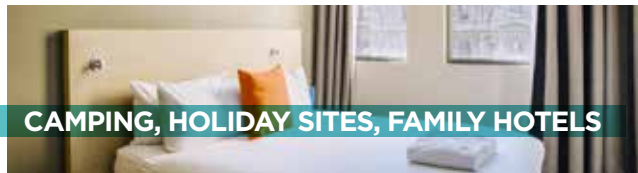

A NEW ERA FOR SELF-SERVICE LAUNDRY INDOOR LOCATION

Revolution Laundry is proud to introduce its new concept with a Plug'n Play laundry dedicated for indoor use. Capable to address indoor location with no hot air evacuation, Twin S is capable to wash and dry up to 9kg.

With a product easy to move delivering highest ROI level, you are capable to scale and adapt your offer to the demand.

WHERE TO INSTALL THE REVOLUTION TWIN S ?

For consumer, Revolution Twin embeds all Revolution DNA with enhanced customer experience and payment systems. It also includes eco-friendly detergent and optional softener.

EXPRESS 30 MIN

Professional machines to wash and dry 9kg of laundry from only 30 minutes*.

ULTRA COMPACT

Size: less than 1m², ideal for smaller surface.

ECO-FRIENDLY WASHING LIQUID

The built-in washing liquid pump provides the ideal quantity for each washing cycle and reduces waste. The highly concentrated washing liquid, free of phosphates, colouring agents and preservatives, complies with the French ECOCERT standards.

PLUG'N PLAY

With its exclusive condensing Dryer, the machine can be located anywhere.. No need for complex ducts or works. A simple Electric plus Water in/out and you are set.

ECONOMIC

Fast cycles at low prices !

*Duration may vary according to selected cycle
